SPORTING NOTES. If Cincinnati keeps on winning, Manager Herzog will be elected mayor or something like that.

If the "Feds" win the Chief Johnson case, it is said that many stars now in organized ball will jump.

Out in Chicago they play baseball on the roofs of the skyscrapers. Play-ers say that a "gravel-roof slide" is Jimmy Callahan is planning to make an outfleider of Big Ed Walsh if his arm does not come into usable

Three Phillie hitters, Paskert, Beck-ar and Cravath, who were at the top of the list a week ago, are down in the middle now.

The only effect the Federal league has had on organized ball, says Ban Johnson, is clubs are paying immense standing.

Allen, a youngster working for Brooklyn, is the leader to the stare.

New York, June 3—Slow progress upward was made today in the stock market. Trading was in smaller volume and the signs of reviving life yesterday falled to show today. The significant feature was cossation of professional pressure and outside figuidation. The market, while irregular, had a good undertone, and after moving back and forth within a narrow range developed sings of real strength toward the close. Fluctuations in the main were measured in fractions, but in a considerable number of cases substantial gains were recovered at the close.

New Haven and Lehigh Valley, whose weakness yesterday disturbed the whole list, made a better showing today. New Haven ended the day under pressure for a time, falling back two points to 124 1-4, the lowest in several weeks. Reports of a possible change in the dividend rate made little impression, and before the close the stock had about made up its loss. Atchison exhibited particular strength and a few of the specialties, such as American Telephone, Consolidated Gas and Wells Fargo scored good gains.

such as American Telephone, Consolidated Gas and Wells Fargo scored good gains.

London was on the selling side at the outset, but when the market began to show signs of strength the arbitrage brokers reversed their position. Steel, Amalgamated and Union Pacific were bought freely for foreign account, about 10,000 shares being taken.

Speculative sentiment was cheered by favoring crop forecasts from private sources, as well as by the improved showing of the railcoads in April returns as compared with the preceding months.

Optimistic reports recently from the steel trade were supported by the weekly reviews of trade authorities, Most of the speculative bonds were in good demand, but in a few cases heaviness developed which gare the market a ragged appearance. Rock Island collaterals were under pressure, Several convertible issues, particularly Atchison and American Telophope, rose strengtly, Total sales, par value, \$2,700,646.

promised me June 20th at Voluntown and 21st at the Falls diamond, but it seems he got cold feet and says he forgot he had those dates taken. But now he don't tell me why he won't play my team. I understand through The Bulletin that the Sachems are not going to play any more local clubs like the West Ends of Norwich on Sundays. Perhaps the manager of the Sachems must think we are not in their class because we come from Voluntown. We want a series of games or know the reason why. Answer through The Bulletin. G. B. The captains of the two teams that will clash this afternoon at the state hospital, Professional and Business men, under the auspices of the Woman's auxiliary of the Y. M. C. A. report that their teams are in the pinkest of condition and Dr. P. J. Cassidy of the Professional men says that the jewelers might as well carve the name on the cup now, as his team will run away from the Business men, hands down, although, on paper, Captain Crawford has a good bunch that used to be capable of hitting the ball at any time. Captain Crawford expects to capture the victory with the first two sets of players and rely on the tailenders to hold the enemy. Captain Cassidy has banked on his last team, which he calls the wrecking crew, to turn the tables.

In case anyone is hurt, the old hospital ambulance will be on hand to cart them away. The teams are the following:

Captain Crawford.

Doak, a one-year holdover of the Cards, had four and one as his count. Then the veteran brigade, led by Mathewson, shows Mathewson, 773; McQuillan, the Pirate comeback, 750; and Yingling, of Cincinnati, 750—all show ahead of Aitchison, the Brooklyn recruit.

Marquard and Cheney follow with Ames. Then Pfeffer and Conzelman, and so on down the list, with the rockies having just a shade.

But it is a veteran who holds the strikeout record at present, Cheney, of the Cubs, having fanned 47. Marquard still has his old control. He has given but seven bases on balls.

For wildness, Leon Ames, veteran of many seasons, has it his way. He has given 28 bases on balls; Benton, his teammate at Cincinnati, is next, with 25 passes.

DOINGS IN THE AUTO WORLD

Grand Prix Race Course is being Fixed Over for July 4th-Automobile Machinery is Badly Abused as a Rule—Designers of Fast Cars in Recent Indianapolis Race to Get Bonus.

Twenty-three miles of the grand prix course are being resurfaced in view of the race on July 4. The government has decided to spend \$32,000 in removing obstructions and remetalling the roads. It can be estimated that the course at Lyons will be the finest possible, for even before this work was put in hand the roads were considered quite up to the average standard of French national highways. The course is roughly triangular, the point selected for the grandstands being on No. 1 leg, 300 yards from the hairpin turn nearest to Lyons.

The people who drive automobiles are becoming more reasonable, how-ever. They realize that a motor car epays in service every attention in receives. And in exact proportion as those who drive cars appreciate that they cannot get uninterrupted services without proper care does the useful-ingular, the point selected for the grandstands being on No. 1 leg, 300 yards from the hairpin turn nearest to Lyons.

yards from the hairpin turn nearest to Lyons.

The automobile, generally speaking, is the most abused piece of machinery in the world. The manufacturing limits in a motor car are as accurate as those in a watch, yet we drive this finely built piece of machinery at high speed over all kinds of roads. It often goes for a long period of time with insufficient lubrication. It is not cleaned as frequently and as thoroughly as it should be. And yet the almost universal attitude of drivers has always been that this wonderfully fine and woefully mistreated mechanism should

SHORT PARAGRAPHS According to information from St. Louis Jack Miller, the Cardinal's star firstsacker, has signed a Federal contract for \$21,000 for three years. Pop Britton of the St. Louis Nationals refused to meet the Feds offer, and apparently he will soon lose the possibility of making the team a first division club.

"Babe" Ruth, Baltimore's crack pither,c is not likely to be captured by the 'Feds" no matter how much money he is offered. Jack Dunn, as well as being Ruth's manager, is his guardian. The pitcher is only 18 and can sign no contract without Dunn's permission. The Baltimore manager discovered the youngster in a state industrial school and upon agreeing to being his guardian Ruth was allowed to go free.

McGraw is afraid that the disease that struck the Chicago Cubs in 1909 that struck the Chicago Cubs in 1909 that struck the Chicago Cubs in 1909 is of the may hit his team this year. In the spring of 1909 it did not look as if any club in the National league had the ghost of a chance to beat the Cubs to a fourth successive pennant. The Pirates got away in front, but all the players on the Chicago team continued to drive their motor cars and enjoy themselves generally, convinced that they could catch the Pirates when they wanted to. What happened is baseball history, and it looks as though the drama might be repeated this year with New York in the role of the Cuba.
